10

Interior Notes

Passenger Seating: Ten (10), Including Belted Lavatory Configuration. There is a forward right-hand galley with annex and an aft in-flight accessible baggage compartment. The forward cabin forward-facing seats feature leg rests. 115 VAC outlets and USB ports are installed throughout the cabin. Cabin Management & Entertainment: Lufthansa's "nice" cabin management system features touchscreen controls, two DVD players, two 20" LCD bulkhead monitors, and Airshow 410. Data & Communications: Wi-Fi Internet is available through a Gogo AVANCE L5 broadband data system, and satellite voice calling is available via an ICG ICS-200 Iridium Satcom system.

Interior Finishes: The interior features "Australian Walnut" high gloss veneer, "Satin Almond Gold" decorative hardware plating, and LX Hausys "Genova" engineered stone countertops. Thai Ping "Poeme Custom" carpeting is installed in the main cabin and lavatory, and vinyl flooring is installed in the entryway and baggage compartment.

The cabin headliner, PSU, and window panels are finished in "China White" Ultraleather, and the lower sidewalls are finished in Brentano "Gliss-Despina" fabric. The cabin seats are covered in Moore & Giles "Modern Taupe" leather. The majority of the interior was refurbished in November 2017. Galley: Forward Galley equipment includes a TIA microwave, coffee maker pull-out tray and outlet, dual hot liquid containers with drip tray, dual ice drawers, and miscellaneous storage compartments. A galley annex is installed immediately forward of the galley, providing additional storage. Lavatory: Aft The aft lavatory is equipped with an externally serviced toilet and a vanity with sink and faucet. Baggage Compartment: The in-flight accessible baggage compartment is located aft of the lavatory and features the "Increase Baggage Capacity" and "Additional Hang-Up Bar" completion options.
